-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 68-83 and 107-113 are presented for examination.

The remarks filed on have been received and entered.

Claims 68-83 are rejected under 35 U.S.C. 112 first paragraph for the reasons set forth on pages 2-4 of the office action of May 22, 2007.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant in his remarks argues that the dry eye is a well known disorder. The examiner agrees with the applicant that dry eye is a well known disorder. However, the rejection was given to the phrase "a symptom of dry eye". Applicant in his remarks argues that the dry eye is associated with many symptoms, which include itching, burning, irritation, redness, blurred vision that improves with blinking, excessive tearing, increased discomfort after periods of reading, watching TV or working on a computer. The arguments have been noted. It is the examiner's position that the instant specification does not provide adequate description for using the claimed compounds or the combination of compounds for treating increased discomfort after periods of reading or watching TV, irritation, burning, itching, which can be caused by different sources different than dry eye. Applicant's arguments regarding the lack of adequate written description regarding the terms "carotenoids", "polyphenol" and "omega-3 fatty acids" have been noted. Applicant in his remarks argues that the specification teaches a representative number of species by chemical name, formula and function. It is the examiner's position that applicant has failed to establish a correlation between structure and function of group of compounds claimed. It is not clear that whether the function of treating dry eye is as a result of being a carotenoid, a

polyphenol or an omega-3 fatty acid or something else. It is not also clear whether the compounds having the structure of polyphenols, a carotenoid or an omega-3 fatty acids or the compounds discovered in the future with such structures are capable of treating dry eye.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ZOHREH A. FAY whose telephone number is (571)272-0573. The examiner can normally be reached on Monday to Friday 9:30-6:00.
